

Space Hub Yorkshire brings you the
Innovate Space Festival

Space is more than rockets and astronauts. Space applications impact our everyday life and by 2030 space will become an integral part of every business across the world

**£50bn
BY 2030**

Yorkshire and the Humber can expect Space-enabled technology and services to underpin £50 billion of regional GDP growth by 2030.

143 regional Space-associated Yorkshire and Humber businesses have grown headcounts by

15% in the last **3 YEARS**

There are many businesses who could be exploiting space more, to innovate, grow and drive profit.

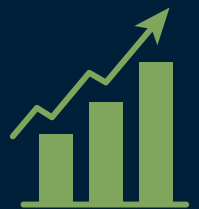

Is yours one of them?

Does your business work in STEM, Technology, Machine Learning, Artificial Intelligence, Engineering, Manufacturing, or rely on GPS?

Then you could access funding from the Space sector

Tuesday 15 &
Wednesday 16
March 2022

**FREE
TWO DAY
HYBRID
EVENT**

Spin In, Spark New, Scale Up

Day 1: giving SMEs toolkits and coaching on what investors look for, how to write pitches and win funding.

Day 2: scaling up, accessing skills, and networking opportunities with larger companies.

Business focussed event aimed at encouraging and supporting SMEs, early-stage entrepreneurs, and innovators in the space sector, **or those who may wish to move into the space sector.**

Talks | Workshops | Networking | Exhibitions

Sessions Include:

- *Innovation in West Yorkshire* - opening remarks by the **West Yorkshire elected Mayor, Tracy Brabin**;
- *How you should be using Space to help your business to innovate* – Joel Freedman, **Satellite Applications Catapult**;
- *Digital Innovation and Space... It's Not Rocket Science* - Alan Cross and Paul Bhatia, **European Space Agency**;
- *Accessing Skills* - Kathie Bowden, **UK Space Agency**;
